Recent Projects

TRONOX– CHANDALA

The challenges associated with the shutdown works at the Tronox Chandala's processing plant North of Perth were successfully addressed by Capel Cranes with the provision of labour, supervision, planning, safety, crane hire and access services for the construction of a heavy vehicle workshop onsite.

NMT GLOBAL PROJECT LOGISTICS

The scope of works involving assistance to NMT with the unloading and transport of structural steel from the Australian Marine Complex, Henderson, W.A., was successfully delivered through the provision of labour, planning, supervision, safety management and crane hire services.

PIACENTINI & SON'S

The removal of 789 cab tubs from Piacentini & Son's Cataby site was successfully completed by Capel Crane Hire, with the provision of crane hire, labour, lift planning and supervision services to support the safe and efficient execution of the project.

Safety

Capel Cranes is committed to maintaining high industry standards through innovation and technology.

Our focus areas include:

- Prioritising culture with positive attitudes and behaviours
- Extensive internal and external safety audits and continuous improvement
- Ongoing skills development and competency testing for all employees
- Comprehensive safety management and incident reporting systems
- Employee involvement and consultation

“ For us, safety is a team effort, and we emphasise the responsibility of every team member to observe and maintain safe work practices. ”

At Capel Crane Cranes, safety underpins every aspect of our service delivery. It is the foremost priority across all operations, guiding our planning, execution, and continuous improvement. This commitment is reinforced through our accreditation to ISO 45001, demonstrating our adherence to internationally recognised occupational health and safety management standards.

We make our operation safe with the following processes:

- Active monitoring of work practices
- Identifying hazards and risks
- Consulting key staff
- Investigation of all incidents
- Implementation of preventative actions
- Adherence to policy & procedures
- Company WHS Safety Representatives
- Monthly Safety Committee

Technology & Innovation

We are committed to continuous improvement through regular training, safety audits, and adopting the latest industry practices.

- Lift planning and analysis software compatible with AUTOCAD
- Modern fleet of cranes and transport equipment
- Fleet control and GPS monitoring
- Electronic scheduling and risk assessments
- Experienced full-time workforce
- Specialized transport fleet

Environmental Commitment

In line with our core value of integrity, our people are trained in environmental and sustainable best practices.

Some of these include:

- Recognising the importance of culturally significant sites
- Use work practices that minimise the environmental and social impact
- Be safe, clean and sustainable

Community Responsibility

Making positive contributions to the communities where we carry out our operations is important to us at Capel Cranes.

We are involved in many grassroots community groups, and actively sponsor not-for-profit organisations within our community.

We are also committed to:

Use local resources and labour and purchase locally

Attend local events and interact with local people

Maintain positivity, friendliness and approachability

Resolve issues and conflicts with communication
